Pope Francis to Humanum conference: family crisis is ‘ecological’ [From Austen Ivereigh in Rome]
November 17, 2014

The crisis in the family has produced an ecological crisis, for social environments, like natural environments, need protection. And although the human race has come to understand the need to address conditions that menace our natural environments, we have been slower to recognize that our fragile social environments are under threat as well, slower in our culture, and also in our Catholic Church. It is therefore essential that we foster a new human ecology.
